

Closure of Medical Schools in the State.

Q.—90. Sri J. L. KABADI (Baradol).—

Will the Government be pleased to state:—

(a) the reasons for the closure of Medical Schools in the State;

(b) whether they had obtained the approval of the Indian Medical Council and the Central Government before starting the Medical Schools in the State;

(c) whether it is a fact that they have started the schools because of the dearth of doctors in the State;

(d) the arrangements made in respect of students who have studied in those schools for a year consequent on the closure of such schools?

A.—Sri K. NAGAPPA ALVA (Minister for Health).—

(a) The Indian Medical Council has taken a decision to abolish the licentiate course in Medicine as it leads to more than one basic standard in medical profession. It was also felt that the students of the Medical Schools could not be trained to come up to the basic minimum standard within the prescribed period of 3½ years. Further, the students from these schools are barred to qualify themselves for condensed M.B.B.S. as the diploma

proposed to be awarded to the students is not recognised either by the University of Mysore or the Karnatak University.

(b) No.

(c) Yes.

(d) The students of these Medical Schools will be accommodated in the pre-professional course leading to M.B.B.S. in the Government Medical Colleges.

Profit or loss of each Major Industry and the investment thereon.

Q.—91. Sri ANNA RAO GANAMUKHI (Afzalpur).—

Will the Government be pleased to state:—

(a) the profit or loss of each Major Industry and the investment thereon;

(b) whether they intend to set up a Committee of the Legislature to keep a watch over the working of industries at public sector?

A.—Sri K. MALLAPPA (Minister for Industries and Commerce).—

(a) A statement showing the Investment and the Profit or Loss of each of the Government Industrial Concerns for 1960-61 is given below.

(b) No.
